Dear AFIT Member:

Preparations for the annual meeting are under way and I am enclosing a Call for Papers. Please send me your proposals at your earliest convenience. As the Call for Papers notes we are planning some sessions on policy issues and formation. I propose one session on Industrial Planning Policy and another on Industrial Policy Problems. If you are interested in presenting a paper or serving as a discussant in either of these sessions let me know as soon as possible.

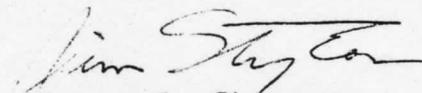

I am also enclosing an updated list of the papers on file in the AFIT Clearinghouse. If you want copies they are available at a charge of 3 cents per page. Would you check the papers listed under your name to be sure that the information provided is correct and also to see if any of them have been published. If they have been published let me know so I can update the Clearing House files and lists for the next issue.

Also enclosed is an AFIT membership list which provides the names and addresses of all members. Please check it for accuracy.

Please note the deadline for paper proposals is November 11.

Thank you very much.

With warmest personal regards,

James I. Sturgeon
Program Chair

This year there will be some sessions devoted to policy issues as well as policy workshops for those who would like to become more involved in policy study, formation and implementation. We very much hope to have some people who are knowledgeable in policy formation and implementation present papers and conduct a workshop. If you know of people with experience in these areas please send me their name and address so that I can contact them.

Please note that the movement into policy areas will not lessen the availability of sessions in the other areas that AFIT members have been participating. We are seeking only to expand our commitment to policy.
